## IBM Watson IOT Platform And NODE-RED APP CREATION

The screenshot shows the IBM Watson IoT Platform interface. The main heading is 'Device Drilldown - 12345'. A sidebar on the left contains navigation links: 'Back', 'Device Credentials', 'Connection Information', 'Recent Events', 'State', and 'Device Information'. The main content area displays the following details:

- the device is connected, you can navigate to view connection and event details.
- Organization ID: kbzwt4
- Device Type: NodeMCU
- Device ID: 12345
- Authentication Method: use-token-auth
- Authentication Token: 12345678

The screenshot shows the IBM Cloud Application Details page for a Node RED SVXEN application. The main heading is 'Node RED SVXEN 2022-11-18'. The page displays the following information:

- Health:** 100% (1/1 instance(s) are running)
- Runtime:** 256 (Total MB allocation)
- Runtime cost:** \$0.00 (Estimated total for billing period Nov 1, 2022 - Nov 30, 2022)
- Connections (1):** node-red-svx-en-2022-11-18-4567890123456789
- Continuous delivery:** You enabled continuous delivery and have a toolchain. With your toolchain, you can automate builds.

API keys

Create, view, and work with API keys that you have access to manage. IBM Cloud API keys are associated with a user's identity and can be used to access cloud platform and classic infrastructure APIs, depending on the access that is assigned to the user. The following table displays a list of API keys created in this account. [Learn more.](#)

Looking for more options to manage API Keys? Try [IBM Cloud® Secrets Manager](#) for creating and leasing API keys dynamically and storing them securely in your own dedicated instance.

View: My IBM Cloud API keys

API keys associated with a user's identity have the same access that the user is assigned across all accounts. To update the access for an API key, assign or remove access for the user.

Status	Name	Description	Date Created
🔒	API Key for NodeREDSVXEN2022-11-18		2022-11-18 04:55 GMT
